M342UNITED STATES DEPARTMENT OF AGRICULTURE
PRODUCTION AND MARKETING ADMINISTRATION
DAIRY BRANCH

To: All Market Administrators

From: H. L. Forest, Assistant Director

Subject: Changes in September Deliveries,
Sales and Prices

Attached is a summary of reports from all Federal order markets covering producer deliveries of milk, fluid milk sales, and Class I and blend prices for September 1950. This summary is based upon information submitted by market administrators in accordance with a memorandum from this office, subject, "Advance Statistics," dated October 29, 1946.

In accordance with Mr. Fedderson's memorandum of July 7, 1949, the receipts and sales data contained herein are for administrative use only.

H. L. Forest

Computed by the Program Analysis and Development Division, Dairy Branch,
P.M.A., from reports of the market administrators.

1. The first step is to identify the subject of the document. This is the main topic or theme that the document is about. It is usually found in the title or the first few sentences of the text.

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved.

2. The second step is to define the requirements. This involves determining what the system is intended to do and what it must be able to do.

3. The third step is to design the system. This includes creating a detailed plan of how the system will be built and how it will be tested.

4. The fourth step is to implement the system. This involves building the system according to the design and testing it to ensure it meets the requirements.

5. The fifth step is to maintain the system. This involves keeping the system up-to-date and ensuring it continues to meet the requirements.
